2021 4RUNNER

Take on the untamable.

CAPABILITY

Conquer the off-road.

This icon features available off-road technologies like Hill Start Assist Control (HAC)³³ and Multi-Terrain Select (MTS)¹. And on daily drives, its available X-REAS Sport Suspension helps you confidently corner without breaking a sweat.

Locking Rear Differential

To help you negotiate uncertain terrain, 4Runner's available electronically controlled locking rear differential distributes engine power evenly to both rear wheels, so they move at the same speed, even if one is off the ground!

Crawl Control (CRAWL)

Available Crawl Control (CRAWL)² automatically modulates the throttle and brakes on five low-speed settings so you can keep your focus on navigating across difficult terrain!

Kinetic Dynamic Suspension System (KDSS)

When taking on extreme off-road terrain, 4Runner's available Kinetic Dynamic Suspension System (KDSS) automatically decouples the sway bars as needed, helping improve wheel articulation!

Off-roading is inherently dangerous. Abusive use may result in bodily harm or vehicle damage. Wear seatbelts at all times and do not allow passengers in cargo area. See numbered footnotes in Disclosures section.

Towing capability

With 4Runner's ability to tow up to 5000 lbs³, venturing into some of nature's toughest ranges doesn't mean you have to leave everything behind.

UTILITY

Designed for the long haul.

Wherever the trail takes you, 4Runner is loaded with features that make it easy to setup the perfect home base.

120V AC power outlet

A 120V AC power outlet⁴ is conveniently located in the cargo area so you can power your gear — like your phone or an air compressor — when you're off the grid.

Sliding rear cargo deck

4Runner's available sliding rear cargo deck can support up to 440 lbs⁵ and makes loading and unloading a breeze.

Power rear glass

A signature element found across all generations of 4Runner. This power rear glass raises and lowers with the push of a button, making it easier to grab your gear from the cargo area. And best of all, it's standard.

8-in. touchscreen

Behind the wheel, 4Runner's 8-in. high-resolution touchscreen makes your playlist, navigation settings and more all look stunning. And you can keep your devices powered up with two front and two rear USB ports.⁷

LED headlights and fog lights

Driving home from the trail after dusk, 4Runner's new standard LED headlights shine bright. And when driving with reduced visibility, 4Runner's new standard LED fog lights help give you a clearer view of what's ahead.

Power moonroof

4Runner's available power tilt/slide moonroof brings you closer to the great outdoors, without even leaving your seat.

Full fold seats

With 4Runner's 40/20/40 fold-flat second-row seats, you can make room for everything you need by folding one or all three seats down to accommodate up to 88.8 cubic feet of cargo.⁵

DISCLOSURES

1. The Toyota 4Runner is designed to meet most off-road driving requirements, but off-roading is inherently dangerous and may result in vehicle damage. Toyota encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Do not allow passengers to ride in cargo area. 2. Crawl Control is designed for driving on difficult terrain at low speeds and assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. See *Owner's Manual* for additional limitations and details. 3. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. [Calculated with the new SAE J2807 method.] Installation of a tow hitch receiver or other accessories located near the rear bumper or side-door kick sensors may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See *Owner's Manual* for limitations. 4. Do not exceed 120V. See *Owner's Manual* for additional limitations and details. 5. Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. 6. Softex® is a registered trademark of Toyota Motor Sales, U.S.A., Inc. 7. May not be compatible with all mobile phones, MP3/WMA players and like models. 8. FOX is a registered trademark of FOX Factory, Inc. 9. Nitto® is a registered trademark of Nitto Tire U.S.A. Inc. 10. Terra Grappler® is a registered trademark of Toyo Tire & Rubber Co., Ltd. 11. Do not overload your vehicle. See *Owner's Manual* for weight limits and restrictions. 12. This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 13.
