OPAQUE ARMOR DETAILS

ALPINE ARMORING INC.

"no one protects you better."

Firewall

Ballistic steel or composite material firewall provides protection from explosion and different angle of attacks.

3-1

Floor

Floor is lined with ballistic steel or composite to protect against mines and grenade blasts.

3-3

Reinforced Door Hinges

Vehicle will be equipped with state-of-the-art Heavy-Duty (HD) hinges that have a built-in door stopper, preventing the use of retaining straps and door swing..

3-5

Overlaps

All doors and windows feature ballistic steel overlaps to keep shrapnel from angle shots from entering the cabin.

3-7

Roof

Roof is lined with ballistic steel or composite to protect against penetration at an angle and vehicle stability.

3-2

Doors

All doors are made from ballistic steel or composite material.

3-4

Rear Partition Door

Customized ballistic rear partition door with ballistic viewing window installed.

3-6

Wheel Wells

Front and rear wheel wells are lined with ballistic steel..

3-8

Glass Armor

Minimum 40 mm thick glass/polycarbonate composite A9/NIJ III transparent armor installed on the vehicle.

4-1

Anti-Spall Layer

Inner-most anti-spall layer prevents glass and bullet fragments from penetrating into passenger cabin area and is free of any optical distortion and discoloration.

4-2

Multi-Hit Protection

All windows are capable of sustaining multiple hits while providing protection to passengers.

4-3

Multi-layer Construction

The front 2 windows are equipped with special custom-designed heavy duty actuator mechanism to allow for faster and quieter operation with maximum traveling distance.

4-4
